

Find the output - Classes and Objects :

Question 1 :

Find the output for the following program:

```
public class Sum{
    int a, b;
    void input(int c, int d){
        a = c;
        b = d;
    }
    int calculate(){
        return a+b;
    }
    void prints(){
        System.out.println(a+b);
    }
    static void main(){
        Sum obj = new Sum();
        obj.input(3, 5);
        System.out.println(obj.calculate());
        obj.prints();
    }
}
```

Question 2 :

Find the output for the following program:

```
public class checker{
    public boolean val(int a){
        if( a%2 ==0 ){
            return true;
        }
        return false;
    }
    public static void main(){
        checker value = new checker();
        boolean d = value.val(3);
        System.out.println(d);
    }
}
```
